

Clean Up Kits

ALWAYS have a clean up kit no matter what age your pup or how short the trip! **Paper towels, plastic bags, water, disinfectant and/or wipes.** ALWAYS have a clean up kit!!!!

PLEASE PLEASE PLEASE pay attention. Sometimes our pups will poop or pee as they are walking. If you notice your pup slowing up, turn around and see what is going on. Don't just hup them w/out a look back. When you are stopped and talking or looking at something. SIT your pup. Less chance of an accident.

If your pup does have an accident and you do not have a clean up bag, PLEASE do not walk away. Stay with the accident until someone comes by with a clean up kit.

We are welcome in many places and if we are not mindful of what our pups are doing, we will no longer be invited back. Most places will understand an accident, but they will not understand if we do not clean up after our pups.

If you are on an outing or at club meeting and you spot a mess, please do not walk away because it wasn't your pup. It is all of our responsibility to make sure nothing is left behind. Outside too! Please clean up!
