

Fireworks

Just a reminder to please watch your puppies closely for stress or fear from fireworks! NO PUPPIES should attend fireworks shows. Some puppies even in their homes may be fearful of the booming. Try to work with your pup to calm it to get through the sounds. You can calm the dog with distraction. Play ball, do simple obedience. Do not “baby”. Act calm and just have fun. If they aren’t reacting, that is great. Don’t do anything. And remember.... do not take your pup to any firework display. Leave them home with some nice music!
